

Fastway have been a hassle free, customer service based freight company we have been using for over 10 years. Nothing is a problem for the local Newcastle branch and being one of the larger businesses in the Hunter Region we need reliable contractors to deliver the service we provide as well. Fastway do this with speed and at a great price.

Our Fastway courier, delivers and picks up twice daily and its proven to be a great selling point to our customers promising an overnight delivery service. Another great selling point is the fact that all goods are fully insured at no extra cost to the customer or the receiver what-so-ever. Thankfully the claims for damaged goods are few and far between.

I would recommend Fastway for any business who need a worry free freight company. ”
